

未来へつなぐメッセージ ~Message to tomorrow~

Music and Lyrics : Kunio Tago Arrangement : Hironori Yoneda

On that day, I saw the light disappear into the darkness
When I looked up to the sky, there I could see a star shining down so bright even in the darkest night
Then I knew that we could see the same sky from somewhere out there
Tears stream down my face
No one is strong on his own, it is hard to smile all alone
I wanna thank you for always being there beside me
I'll never forget your kindness. I'll never forget the warmth I felt
So take my hand in your hand with
Our music for the future
The colors of the rainbow
Let us create the future for our world today with
Our message to the future to tomorrow
We are living together here and now, yes, we are all living here and now
With our love, let's plant a seed, and raise the plant of love together
Then we can wait forever to see 'cause I want to believe a beautiful flower will bloom again someday
Add your strength to change the future to my hope for tomorrow let's move forward today
Everyone just wants to forget, but we should never forget
I wanna thank you and everything that's around me
This scar will never ever fade, 'cause it has become a part of me
I want to embrace it with my heart, with my soul, with
Our music for the future
The colors of the rainbow
Let us create the future for our world today with
Our message to the future to tomorrow
We are escaping the darkness, yes, the light will pierce through the darkness
We send it out for tomorrow
